

# Tech Sheet: Northrop Grumman Triton MQ-4C

(northrop-grumman-MQ4.pdf)

Global Hawk Engine Intake and Exhaust Cover Set

## Section 2: Engine Covers

The **Northrop Grumman Triton MQ-4C Intake Covers** are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffle bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight nylon which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

Intake Cover with small inlet plug

Global Hawk Exhaust Cover

| Description  | Part Number    | Price             |
|--|----------------|-------------------|
| INTAKE COVER w/2 RBF Streamers, includes RAM air inlet plug (set of 2) | <b>MQ4-100</b> | <b>Contact Us</b> |
| EXHAUST COVER, w/2 RBF Streamers, BAMS Model                           | <b>MQ4-200</b> | <b>Contact Us</b> |

### Section 3: Plugs & Protection

The **Northrop Grumman Triton MQ-4C Intake/Exhaust Plugs** are custom fit for the intake and exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Engine plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black. Engine plugs may be inserted after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

The **Engine Exhaust Plugs** are custom fit for your Northrop Grumman Triton MQ-4C exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Exhaust plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Exhaust plugs may be inserted soon after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.
